

AGRIBALANCE®

INNOVATION TO PROMOTE A GREEN FUTURE

This high-performing, open-cell spray foam insulation is manufactured with natural, renewable oils. Building professionals can achieve new standards in commercial, residential, agricultural, and industrial construction.

OPEN-CELL

Agribalance® is in compliance with the IBC, the IRC, and the IECC, and is a USDA Bio-Preferred Product and an NAHB Research Center Green Approved Product.

R-value = 4.45 @ 1 inch

Developed with 20% of Agri-based, Renewable Materials

Density = 3/4 lb/ft³

AGRIBALANCE

HIGH PERFORMANCE, QUALITY,
& ENERGY EFFICIENCY

OPEN-CELL

Agribalance polyurethane insulation expands to seal cracks, gaps, and voids in attics, walls, crawl spaces, and ceilings, which reduces air leakage and improves energy efficiency. It also minimizes moisture intrusion and outside contaminants such as dust, dirt, and allergens. Builders can generally install smaller HVAC systems and achieve similar or superior temperature comfort levels compared with traditional insulated structures, which require larger HVAC systems — resulting in higher energy costs.

-
- ⬡ **Decreases dust and air pollutants**
 - ⬡ **Maximizes energy efficiency**
 - ⬡ **Minimizes noise disturbance**
 - ⬡ **Contains no ozone-depleting chemicals or asbestos**
